

Shoebox OPTIONS

Features

-Q7 QUICKSHIP - Indicates product is to be quick shipped. In some cases specifications may change to meet the order's needs.

Component Upgrades

-LPS PULSE START MH LAMP for longer life, premium color rendering and constant lumens

-Vn SET VOLTAGE: Unless indicated ballasts come in 120/208/240/277v. V4 indicates 480v, and V1, V28, V24, V27 are single tap versions.

-PC PHOTOCELL: PC indicates a internal photocell. When used the Voltage (Vn) suffix must be added as well.

Shields

-HS HOUSE SIDE CUTOFF: Prevents light from shining behind pole. Depending on fixture it may be a lens adjustment or a physical barrier.

-GS GLARE SHIELD: Reduce glare on PR fixtures when tilted above the 0d axis

Mounting Alternatives

-MWF WALL MOUNT w/FIXED ARM uses flat steel plate to mount

-MWA UP ARM WALL MOUNT Use with Adjustable mount to tilt head downward

-MUL UPLIGHT MOUNT & SEAL Use with adj. Mount. Option will change lens seal to use as up light

Colors

BRONZE: Default color, almost brown

-CBK BLACK

-CWH WHITE

-CGR GREEN
