

## Vertical Forward Throw Shoebox

7DayPoles.com's "Lighting Beast" offers incredible lighting potential. Inside the housing, the lamp is tilted 20° from vertical toward the house-side of the fixture. The Vertical Forward Throw is ideal for use in wide roadway areas and large parking areas.

Type II Modified distribution (See Optics section for more info)

Materials & Finish  
Housings are made with die-cast seamless aluminum and painted with the Delta Guard finish, featuring an E-coat epoxy primer and a bronze acrylic powder topcoat. This assures you that the products you install today will look great in the future as well. We are so confident, we offer a 7-year finish warranty!

Ballasts  
All fixtures are standard with a high power factor ballast. The VT fixtures are supplied with a multi-volt ballast (120, 208, 240 and 277 volts). 480volt ballast is an option.

Labels  
UL Listed in U.S. and Canada for wet locations

### Pole Advice

POLES - 1 head works with any pole. 2 heads must use concrete poles or the SS525 steel pole. 3 or more must use a concrete pole.
