Parking Lot Lighting

Replacement, Service, Monitoring

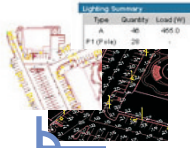

Wesworth is your Solution for parking lot lighting. From our **Quick7 parts delivery, to **NightOwl** monitoring, we offer superior service for your lighting needs. No other full service residential and commercial electrical firm can deliver these effective services.**

Need replacement fixtures or poles fast? Then ask for the **Quick7** delivery. Under this program you can get our shoebox fixtures and steel poles delivered to your site within 7 days.

Think you need concrete poles to meet new windloads? No, super strong thick steel poles still meet the new building codes. Our steel poles have the **DeltaGuard(R)** finish meaning your investment will stay rust free and looking great.

Wesworth's in-house lighting designer can produce lighting photometrics, **blueprints** and engineering services which reduces your cost and timetables.

Wesworth's FREE **NightOwl** or predictable lighting verification service offers customers monthly reports on the illumination status at their facility.

Wesworth's bucket truck services include: 48 hour service, **55' height capacity**, optional same day service, and warranty monitoring.

**Full line of functional and decorative pole lighting.
Bucket truck service \$95/hour.**
